CHAPTER 1: THE EMERGENCY

Slide 2: Mass Resignations Hit HR

Critical Red Alert

Panel 1 • Exit Surge — 09:00 AM

HR Shivani: "Sir! Senior developers and Tech Leads back-to-back resign kar rahe hain!"

16.1% Spike in Attrition Rate

Panel 2 • Executive Fury — 09:15 AM

Boss: "Shivani! Clients line pe hain. Project deadlines collapse ho rahi hain. Fix this attrition NOW!"

Boss demands immediate answers without understanding root cause.

Panel 3 • The Confusion — 10:00 AM

HR Shivani: "Is it compensation or work culture? Exit surveys se exact pattern samajh nahi aa raha!"

Unstructured exit feedback creates complete operational confusion.

Panel 4 • Harsh Intervenes — 10:30 AM

Harsh: "Shivani Ma'am, tension mat lo! HR database load karke main statistical root-cause spot karta hoon."

Harsh initiates diagnostic analysis on 1,470 records.

CHAPTER 2: DATA DIGGING

Slide 3: Analyzing 1,470 Employee Dataset

Data Diagnostics

Panel 1 • Dataset Breakdown

Harsh: "Ma'am, main IBM Attrition dataset (1,470 records & 35 variables) run kar raha hoon!"

Variables analyzed: Overtime, Monthly Income, Tenure, Work-Life Balance.

Panel 2 • Overtime Trigger

Harsh: "Look at this! Overtime karne waale employees me attrition rate 30.6% hai vs 10.3% non-overtime!"

3x Higher Attrition on Overtime

Panel 3 • Shivani's Realization

HR Shivani: "Aha! Employees sirf high salary ke liye nahi quit kar rahe, extreme overtime is burning them out!"

Problem reframed from Compensation to Workload Burnout.

Panel 4 • Boss Interrupts

Boss: "Sirf overtime? No! What about young engineering talent leaving early?"

Boss pushes for deeper tenure-wise segmentation.

CHAPTER 3: HIDDEN DRIVERS

Slide 4: Early Tenure & Growth Plateau Spotting

Pattern Discovery

Panel 1 • Tenure Flight

Harsh: "Boss, data reveals that 29.8% of new hires leave within 0–2 years!"

29.8% 0–2 Year Tenure Churn

Panel 2 • Stagnation Trap

Harsh: "2+ years tak no promotion equals double attrition risk among mid-level engineers."

Career stagnation creates frustration in high-performing staff.

Panel 3 • Shivani Summarizes

HR Shivani: "Core problem found: Severe Overtime + Zero Career Visibility at 18-month mark!"

Root cause pinpointed accurately using data.

Panel 4 • Boss Wants Action

Boss: "Great insight! Now tell me Shivani & Harsh: Iss resignation count ko zero kaise karein?"

Transition from problem diagnosis to action strategy.

CHAPTER 4: TARGET ZONES

Slide 5: High-Risk Departments Pinpointed

Risk Heatmap

Panel 1 • Sales & Tech Risk

Harsh: "R&D/Tech accounts for 56% total exits, while Sales shows highest churn rate at 20.6%!"

56% R&D Exit Volume

Panel 2 • Manager Relationship

Harsh: "Employees working under same manager for < 1 year show significantly higher turnover."

Onboarding gap and manager alignment issue confirmed.

Panel 3 • Shivani's Strategy

HR Shivani: "Hum target interventions strictly Tech aur Sales teams par focus karenge!"

Resource allocation prioritized for maximum impact.

Panel 4 • Boss Approves Target

Boss: "Targeted approach builds efficiency! Show me the specific policy solutions now."

Executive endorsement secured for solution design.

CHAPTER 5: STRATEGY BLUEPRINT

Slide 6: Designing 3-Pillar Retention Strategy

Action Plan

Pillar 1 • Overtime Cap

Harsh: "Pillar 1: System-triggered caps! Automated alert jab bhi weekly overtime 45 hours cross kare."

45 Hrs Max Overtime Threshold

Pillar 2 • Career Roadmaps

HR Shivani: "Pillar 2: 12-Month Structured Growth Path for every early hire to stop early exit."

Clear progression milestones reducing tenure exits.

Pillar 3 • Stay Interviews

HR Shivani: "Pillar 3: Quarterly Stay Interviews instead of Exit Interviews to fix issues early!"

Catching employee burnout before resignation happens.

Panel 4 • Boss Demands ROI

Boss: "Sounds good on paper! But what is the financial ROI and business impact?"

Executive demanding financial justification.

CHAPTER 6: BUSINESS CASE

Slide 7: Harsh Proves $1.2M ROI to Boss

Financial Impact

Panel 1 • Cost Calculation

Harsh: "Boss, 1 replacement costs 1.5× salary! Retaining 50 engineers saves $1.2M annually!"

$1.2M Annual Cost Savings

Panel 2 • Productivity Safeguard

HR Shivani: "Burnout reduce karne se project delivery speed 25% restore ho jayegi Sir!"

Key client deliverables protected from delay.

Panel 3 • Boss Impressed

Boss: "Outstanding financial modeling! Budget approved for immediate policy rollout!"

Executive sign-off granted instantly.

Panel 4 • Launch Order

HR Shivani: "Harsh, launch the live predictive dashboard starting tomorrow!"

Execution phase initialized immediately.

CHAPTER 7: EXECUTION

Slide 8: Predictive Analytics Dashboard Live

Implementation

Panel 1 • Real-Time Sentinel

Harsh: "Shivani Ma'am, real-time alert dashboard active hai! Overtime spikes instant flag hote hain."

Real-Time Burnout Alerts Active

Panel 2 • Proactive HR Action

HR Shivani: "Main immediately engineering managers ke saath workload re-balance kar rahi hoon."

Proactive manager alignment meetings established.

Panel 3 • Team Morale Rebound

Harsh: "Tech leads report feeling heard and valued again; team balance restored!"

Employee confidence index surges across engineering teams.

Panel 4 • Review Time

Boss: "Let's review the 6-month attrition performance statistics now!"

Executive review checkpoint reached.

CHAPTER 8: THE VICTORY

Slide 9: Measurable Results & Crisis Solved!

Turnaround Win

Panel 1 • Attrition Plummets

Harsh: "Boss, overall attrition rate dropped from 16.1% down to 8.2%!"

8.2% New Low Attrition Rate

Panel 2 • Resignations Retracted

HR Shivani: "3 top senior engineers cancelled resignations after career map alignment!"

Critical technical talent retained successfully.

Panel 3 • Executive Praise

Boss: "Outstanding leadership Shivani & Harsh! Deliverables are 100% on schedule!"

Executive praise & client retention secured.

Panel 4 • Team Celebration

HR Shivani: "Data Analytics turned our biggest HR nightmare into an organizational win!"

Story culmination.

HR ANALYTICS PLAYBOOK

Slide 10: Final Strategic Takeaways

1. Cap Overtime

Track weekly hours dynamically. Overtime is the #1 single statistical predictor of employee turnover.

2. Mid-Tenure Growth

Provide clear 12-to-18 month career progression roadmaps to stop early-tenure developer flight.

3. Data Over Intuition

Replace guesswork with quantitative dataset diagnostics to win executive budget support.

🎉 "When HR intuition meets Data Science, entire organizations thrive!" — HR Shivani & Harsh
